This documentary takes us inside the creative process of author and landscape designer Piet Oudolf, visiting his own gardens and his signature public works (eg. The High Line). Through poetic cinematography and unique access, FIVE SEASONS reveals all that Piet sees, and celebrates all that we as viewers have been unable to see.

*"For me, garden design isn't just about plants, it is about emotion, atmosphere, a sense of contemplation. You try to move people with what you do. You look at this, and it goes deeper than what you see. It reminds you of something in the genes — nature, or the longing for nature."*

– Piet Oudolf
